

Save The Mary

Going around negative consequences

What to do
When you don't like
What the government/Authority
Is doing.

1. If you don't like what the government is doing, you should start by telling them persuasively and in a civilised way that what they are doing is not right.
2. If the government is still not convinced write a letter and persist until they respond. Make sure the writing is convincing.
3. Another idea would be to take a petition and/or a ballot.
4. If that still does not work talk to the authorities/mayor of town about the problem they might be able to resolve the situation.
5. In our democratic society we should respect, accept and support whatever the government decides

These are simple but hard to follow rules but if we abide with these rules the government would be put at ease and so would we. We should use these rules in any situa-

Mary River valley
Will be destroyed

tion for example the Mary river valley. Yes it will be destroyed but if we follow these rules we might be able to save it or we will still know that we did the right thing as in not going against the law by doing the wrong things.

What not to do
When you don't like
What the authorities/government
Is doing

1. Do not put anyones/your life endanger to protest against any issues.
2. Do not throw any object at police/anyone to make your point clear.
3. Do not keep your children from education to protest against the issue
4. Do not go on workers strike to protest against the issue others might need you.
5. Do not make signs that have rude, offending and violent words written on it.
6. Do not burn for example a photo of the Prime minister's head to make your point.

Listen to these instructions and we will live a non violent life.

Thank you

Thank you for giving up your time to read this important brochure about how we should act towards situations like the Mary river.
